

LOSING FIRST ROUND? NEW WAYS TO WIN!

WINNING BEGINS WITH CAM AND VALVETRAIN CORRECTLY
MATCHED TO YOUR ENGINE COMPONENTS AND CHASSIS.
WINNING BEGINS WITH LUNATI!

Tired of losing first-round, loading up and heading home? Had it with "no help-tech help" from your cam company? Call us and **talk to real racers who hate losing like you do!** We can get your Ford-powered combination sorted out with **more horsepower, torque, RPM, and more round wins!**

A LUNATI MATCHED VALVETRAIN MAKES MORE HP:

There are many cam companies out there, but only Lunati's racer tech staff has the hands-on racing engine knowledge to match the correct lifters, valve springs, spring retainers, valve locks, pushrods and rocker arms to your exact camshaft lobe profile, engine, drivetrain and chassis. These components are critical to assembling a balanced race engine valvetrain capable of **producing maximum horsepower, torque and RPM** over the widest power band. Let us choose the **right parts for you!**

  LUNATI: THE RACER'S COMPANY

NEW ALUMINUM ROCKERS REDUCE FRICTION, INCREASE HP & RESPONSE!

- Accelerates valve opening
- Quicker throttle response
- More stable at high RPM
- Reduces operating friction
- Aircraft-quality, heat-treated aluminum alloy

NEED A CUSTOM GRIND CAM?

WE SHIP IN 1-2 DAYS: Because we're racers, we know the importance of trying the latest new cam profiles, to **go faster**. That's why we offer our custom-grind cam service with 1- to 2-day service. Our cam lobe profile "library" has hundreds of computer-designed lobes. We can create an entirely new cam, mix and match intake and exhaust lobes or make a lobe separation change, and do it **within 1-2 days**.
